LOGICAL FALLACY BINGO

Card 1 of 80

Middle ground: the truth must be a compromise between opposing positions	Strawman: misrepresenting argument	Incredulity: dismissing argument because you find it hard to understand
Red herring: distract by raising an irrelevant issue	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	False dichotomy: present only two options, when other possibilities exist
Anecdotal evidence: use personal experience to dismiss hard data	Texas sharpshooter: cherry−pick evidence	Double standard

LOGICAL FALLACY BINGO

Card 2 of 80

Double standard	Incredulity: dismissing argument because you find it hard to understand	Middle ground: the truth must be a compromise between opposing positions
Ad hominem: personal attack of opponent	Bandwagon: appeal to popularity	Appeal to authority: Experts say so
Burden of proof: make opponent find evidence for your claim	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Appeal to nature: because something is "natural", it is good

LOGICAL FALLACY BINGO

Card 3 of 80

Begging the question/circular reasoning/assuming the conclusion	Anecdotal evidence: use personal experience to dismiss hard data	Double standard
Bandwagon: appeal to popularity	Appeal to nature: because something is "natural", it is good	Ambiguity: using double meanings or unclear definitions
Special pleading: making exceptions when claim is refuted	Appeal to authority: Experts say so	Middle ground: the truth must be a compromise between opposing positions

LOGICAL FALLACY BINGO

Card 4 of 80

Red herring: distract by raising an irrelevant issue	Appeal to authority: Experts say so	Tu quoque: answering criticism with criticism
Burden of proof: make opponent find evidence for your claim	Slippery slope: weed is a gateway drug to heroin, so we should ban weed	False dichotomy: present only two options, when other possibilities exist
Incredulity: dismissing argument because you find it hard to understand	Strawman: misrepresenting argument	Anecdotal evidence: use personal experience to dismiss hard data

LOGICAL FALLACY BINGO

Card 5 of 80

Tu quoque: answering criticism with criticism	Begging the question/circular reasoning/assuming the conclusion	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged
Texas sharpshooter: cherry−pick evidence	Anecdotal evidence: use personal experience to dismiss hard data	Special pleading: making exceptions when claim is refuted
Middle ground: the truth must be a compromise between opposing positions	Appeal to nature: because something is "natural", it is good	Ad hominem: personal attack of opponent

LOGICAL FALLACY BINGO

Card 6 of 80

Ad hominem: personal attack of opponent	Double standard	Special pleading: making exceptions when claim is refuted
Tu quoque: answering criticism with criticism	Texas sharpshooter: cherry−pick evidence	Middle ground: the truth must be a compromise between opposing positions
Begging the question/circular reasoning/assuming the conclusion	Incredulity: dismissing argument because you find it hard to understand	Ambiguity: using double meanings or unclear definitions

LOGICAL FALLACY BINGO

Card 7 of 80

Bandwagon: appeal to popularity	False dichotomy: present only two options, when other possibilities exist	Anecdotal evidence: use personal experience to dismiss hard data
Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Begging the question/circular reasoning/assuming the conclusion	Ad hominem: personal attack of opponent
Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Appeal to nature: because something is "natural", it is good	Middle ground: the truth must be a compromise between opposing positions

LOGICAL FALLACY BINGO

Card 8 of 80

Anecdotal evidence: use personal experience to dismiss hard data	Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Appeal to nature: because something is "natural", it is good
Bandwagon: appeal to popularity	Composition/division: Some protestors were violent, so all protestors are violent	Special pleading: making exceptions when claim is refuted
Tu quoque: answering criticism with criticism	Double standard	Middle ground: the truth must be a compromise between opposing positions

LOGICAL FALLACY BINGO

Card 9 of 80

Double standard	Tu quoque: answering criticism with criticism	Slippery slope: weed is a gateway drug to heroin, so we should ban weed
Strawman: misrepresenting argument	Appeal to authority: Experts say so	Red herring: distract by raising an irrelevant issue
Middle ground: the truth must be a compromise between opposing positions	Composition/division: Some protestors were violent, so all protestors are violent	Special pleading: making exceptions when claim is refuted

LOGICAL FALLACY BINGO

Card 10 of 80

Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Double standard	Begging the question/circular reasoning/assuming the conclusion
Composition/division: Some protestors were violent, so all protestors are violent	Strawman: misrepresenting argument	Anecdotal evidence: use personal experience to dismiss hard data
Ambiguity: using double meanings or unclear definitions	Incredulity: dismissing argument because you find it hard to understand	Red herring: distract by raising an irrelevant issue

LOGICAL FALLACY BINGO

Card 11 of 80

Composition/division: Some protestors were violent, so all protestors are violent	Anecdotal evidence: use personal experience to dismiss hard data	Slippery slope: weed is a gateway drug to heroin, so we should ban weed
Bandwagon: appeal to popularity	Appeal to authority: Experts say so	Burden of proof: make opponent find evidence for your claim
Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Double standard	False dichotomy: present only two options, when other possibilities exist

LOGICAL FALLACY BINGO

Card 12 of 80

Anecdotal evidence: use personal experience to dismiss hard data	Ad hominem: personal attack of opponent	Appeal to authority: Experts say so
Composition/division: Some protestors were violent, so all protestors are violent	Texas sharpshooter: cherry−pick evidence	Appeal to nature: because something is "natural", it is good
Bandwagon: appeal to popularity	Begging the question/circular reasoning/assuming the conclusion	Ambiguity: using double meanings or unclear definitions

LOGICAL FALLACY BINGO

Card 13 of 80

Bandwagon: appeal to popularity	Double standard	Ambiguity: using double meanings or unclear definitions
Appeal to nature: because something is "natural", it is good	Begging the question/circular reasoning/assuming the conclusion	Middle ground: the truth must be a compromise between opposing positions
Tu quoque: answering criticism with criticism	Red herring: distract by raising an irrelevant issue	Slippery slope: weed is a gateway drug to heroin, so we should ban weed

LOGICAL FALLACY BINGO

Card 14 of 80

False dichotomy: present only two options, when other possibilities exist	Tu quoque: answering criticism with criticism	Burden of proof: make opponent find evidence for your claim
Ad hominem: personal attack of opponent	Special pleading: making exceptions when claim is refuted	Ambiguity: using double meanings or unclear definitions
Incredulity: dismissing argument because you find it hard to understand	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Middle ground: the truth must be a compromise between opposing positions

LOGICAL FALLACY BINGO

Card 15 of 80

Bandwagon: appeal to popularity	Texas sharpshooter: cherry−pick evidence	Appeal to nature: because something is "natural", it is good
Tu quoque: answering criticism with criticism	Appeal to authority: Experts say so	Composition/division: Some protestors were violent, so all protestors are violent
Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Middle ground: the truth must be a compromise between opposing positions	Begging the question/circular reasoning/assuming the conclusion

LOGICAL FALLACY BINGO

Card 16 of 80

Middle ground: the truth must be a compromise between opposing positions	Appeal to authority: Experts say so	Begging the question/circular reasoning/assuming the conclusion
Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Special pleading: making exceptions when claim is refuted	False dichotomy: present only two options, when other possibilities exist
Texas sharpshooter: cherry−pick evidence	Tu quoque: answering criticism with criticism	Appeal to nature: because something is "natural", it is good

LOGICAL FALLACY BINGO

Card 17 of 80

Anecdotal evidence: use personal experience to dismiss hard data	Special pleading: making exceptions when claim is refuted	Incredulity: dismissing argument because you find it hard to understand
Burden of proof: make opponent find evidence for your claim	Begging the question/circular reasoning/assuming the conclusion	Tu quoque: answering criticism with criticism
Strawman: misrepresenting argument	False dichotomy: present only two options, when other possibilities exist	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged

LOGICAL FALLACY BINGO

Card 18 of 80

Strawman: misrepresenting argument	Appeal to nature: because something is "natural", it is good	Anecdotal evidence: use personal experience to dismiss hard data
Appeal to authority: Experts say so	Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Ambiguity: using double meanings or unclear definitions
Texas sharpshooter: cherry−pick evidence	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Red herring: distract by raising an irrelevant issue

LOGICAL FALLACY BINGO

Card 19 of 80

False dichotomy: present only two options, when other possibilities exist	Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Composition/division: Some protestors were violent, so all protestors are violent
Incredulity: dismissing argument because you find it hard to understand	Ambiguity: using double meanings or unclear definitions	Red herring: distract by raising an irrelevant issue
Double standard	Begging the question/circular reasoning/assuming the conclusion	Strawman: misrepresenting argument

LOGICAL FALLACY BINGO

Card 20 of 80

Ambiguity: using double meanings or unclear definitions	Burden of proof: make opponent find evidence for your claim	Strawman: misrepresenting argument
Incredulity: dismissing argument because you find it hard to understand	Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Begging the question/circular reasoning/assuming the conclusion
Ad hominem: personal attack of opponent	Anecdotal evidence: use personal experience to dismiss hard data	Composition/division: Some protestors were violent, so all protestors are violent

LOGICAL FALLACY BINGO

Card 21 of 80

Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Double standard	Middle ground: the truth must be a compromise between opposing positions
Ambiguity: using double meanings or unclear definitions	Anecdotal evidence: use personal experience to dismiss hard data	False dichotomy: present only two options, when other possibilities exist
Strawman: misrepresenting argument	Appeal to nature: because something is "natural", it is good	Special pleading: making exceptions when claim is refuted

LOGICAL FALLACY BINGO

Card 22 of 80

Appeal to authority: Experts say so	Special pleading: making exceptions when claim is refuted	Appeal to nature: because something is "natural", it is good
Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Strawman: misrepresenting argument	Red herring: distract by raising an irrelevant issue
Double standard	Ad hominem: personal attack of opponent	Bandwagon: appeal to popularity

LOGICAL FALLACY BINGO

Card 23 of 80

Bandwagon: appeal to popularity	Texas sharpshooter: cherry−pick evidence	Special pleading: making exceptions when claim is refuted
Appeal to authority: Experts say so	Begging the question/circular reasoning/assuming the conclusion	Double standard
Red herring: distract by raising an irrelevant issue	Strawman: misrepresenting argument	Ambiguity: using double meanings or unclear definitions

LOGICAL FALLACY BINGO

Card 24 of 80

False dichotomy: present only two options, when other possibilities exist	Incredulity: dismissing argument because you find it hard to understand	Appeal to nature: because something is "natural", it is good
Middle ground: the truth must be a compromise between opposing positions	Tu quoque: answering criticism with criticism	Appeal to authority: Experts say so
Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Strawman: misrepresenting argument	Begging the question/circular reasoning/assuming the conclusion

LOGICAL FALLACY BINGO

Card 25 of 80

Red herring: distract by raising an irrelevant issue	Begging the question/circular reasoning/assuming the conclusion	False dichotomy: present only two options, when other possibilities exist
Burden of proof: make opponent find evidence for your claim	Ad hominem: personal attack of opponent	Double standard
Middle ground: the truth must be a compromise between opposing positions	Special pleading: making exceptions when claim is refuted	Tu quoque: answering criticism with criticism

LOGICAL FALLACY BINGO

Card 26 of 80

Texas sharpshooter: cherry−pick evidence	Appeal to nature: because something is "natural", it is good	Ambiguity: using double meanings or unclear definitions
Red herring: distract by raising an irrelevant issue	Burden of proof: make opponent find evidence for your claim	Tu quoque: answering criticism with criticism
Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Special pleading: making exceptions when claim is refuted	False dichotomy: present only two options, when other possibilities exist

LOGICAL FALLACY BINGO

Card 27 of 80

Double standard	Tu quoque: answering criticism with criticism	Burden of proof: make opponent find evidence for your claim
Ad hominem: personal attack of opponent	Appeal to authority: Experts say so	Anecdotal evidence: use personal experience to dismiss hard data
False dichotomy: present only two options, when other possibilities exist	Special pleading: making exceptions when claim is refuted	Texas sharpshooter: cherry−pick evidence

LOGICAL FALLACY BINGO

Card 28 of 80

Red herring: distract by raising an irrelevant issue	Ambiguity: using double meanings or unclear definitions	Special pleading: making exceptions when claim is refuted
Strawman: misrepresenting argument	Incredulity: dismissing argument because you find it hard to understand	Middle ground: the truth must be a compromise between opposing positions
Double standard	Composition/division: Some protestors were violent, so all protestors are violent	Texas sharpshooter: cherry−pick evidence

LOGICAL FALLACY BINGO

Card 29 of 80

Begging the question/circular reasoning/assuming the conclusion	Texas sharpshooter: cherry−pick evidence	Burden of proof: make opponent find evidence for your claim
Appeal to nature: because something is "natural", it is good	Special pleading: making exceptions when claim is refuted	Anecdotal evidence: use personal experience to dismiss hard data
Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Middle ground: the truth must be a compromise between opposing positions	Double standard

LOGICAL FALLACY BINGO

Card 30 of 80

Texas sharpshooter: cherry−pick evidence	Appeal to authority: Experts say so	Ambiguity: using double meanings or unclear definitions
Red herring: distract by raising an irrelevant issue	Appeal to nature: because something is "natural", it is good	Burden of proof: make opponent find evidence for your claim
Special pleading: making exceptions when claim is refuted	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	False dichotomy: present only two options, when other possibilities exist

LOGICAL FALLACY BINGO

Card 31 of 80

Strawman: misrepresenting argument	Appeal to nature: because something is "natural", it is good	Special pleading: making exceptions when claim is refuted
Composition/division: Some protestors were violent, so all protestors are violent	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Appeal to authority: Experts say so
Burden of proof: make opponent find evidence for your claim	False dichotomy: present only two options, when other possibilities exist	Slippery slope: weed is a gateway drug to heroin, so we should ban weed

LOGICAL FALLACY BINGO

Card 32 of 80

Appeal to authority: Experts say so	Tu quoque: answering criticism with criticism	Special pleading: making exceptions when claim is refuted
Burden of proof: make opponent find evidence for your claim	Begging the question/circular reasoning/assuming the conclusion	Incredulity: dismissing argument because you find it hard to understand
Composition/division: Some protestors were violent, so all protestors are violent	Red herring: distract by raising an irrelevant issue	Texas sharpshooter: cherry−pick evidence

LOGICAL FALLACY BINGO

Card 33 of 80

Tu quoque: answering criticism with criticism	Composition/division: Some protestors were violent, so all protestors are violent	False dichotomy: present only two options, when other possibilities exist
Appeal to authority: Experts say so	Begging the question/circular reasoning/assuming the conclusion	Incredulity: dismissing argument because you find it hard to understand
Ad hominem: personal attack of opponent	Anecdotal evidence: use personal experience to dismiss hard data	Strawman: misrepresenting argument

LOGICAL FALLACY BINGO

Card 34 of 80

Composition/division: Some protestors were violent, so all protestors are violent	Slippery slope: weed is a gateway drug to heroin, so we should ban weed	False dichotomy: present only two options, when other possibilities exist
Red herring: distract by raising an irrelevant issue	Texas sharpshooter: cherry−pick evidence	Ambiguity: using double meanings or unclear definitions
Incredulity: dismissing argument because you find it hard to understand	Appeal to authority: Experts say so	Begging the question/circular reasoning/assuming the conclusion

LOGICAL FALLACY BINGO

Card 35 of 80

Middle ground: the truth must be a compromise between opposing positions	Appeal to nature: because something is "natural", it is good	Bandwagon: appeal to popularity
Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Appeal to authority: Experts say so	Red herring: distract by raising an irrelevant issue
Special pleading: making exceptions when claim is refuted	Anecdotal evidence: use personal experience to dismiss hard data	Ad hominem: personal attack of opponent

LOGICAL FALLACY BINGO

Card 36 of 80

Red herring: distract by raising an irrelevant issue	Burden of proof: make opponent find evidence for your claim	Slippery slope: weed is a gateway drug to heroin, so we should ban weed
Ambiguity: using double meanings or unclear definitions	False dichotomy: present only two options, when other possibilities exist	Strawman: misrepresenting argument
Tu quoque: answering criticism with criticism	Texas sharpshooter: cherry−pick evidence	Appeal to nature: because something is "natural", it is good

LOGICAL FALLACY BINGO

Card 37 of 80

Composition/division: Some protestors were violent, so all protestors are violent	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Red herring: distract by raising an irrelevant issue
Ad hominem: personal attack of opponent	Bandwagon: appeal to popularity	Ambiguity: using double meanings or unclear definitions
Anecdotal evidence: use personal experience to dismiss hard data	False dichotomy: present only two options, when other possibilities exist	Slippery slope: weed is a gateway drug to heroin, so we should ban weed

LOGICAL FALLACY BINGO

Card 38 of 80

Tu quoque: answering criticism with criticism	Middle ground: the truth must be a compromise between opposing positions	Strawman: misrepresenting argument
Anecdotal evidence: use personal experience to dismiss hard data	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Slippery slope: weed is a gateway drug to heroin, so we should ban weed
Bandwagon: appeal to popularity	Ambiguity: using double meanings or unclear definitions	Red herring: distract by raising an irrelevant issue

LOGICAL FALLACY BINGO

Card 39 of 80

Strawman: misrepresenting argument	Tu quoque: answering criticism with criticism	False dichotomy: present only two options, when other possibilities exist
Appeal to nature: because something is "natural", it is good	Special pleading: making exceptions when claim is refuted	Ad hominem: personal attack of opponent
Texas sharpshooter: cherry−pick evidence	Bandwagon: appeal to popularity	Middle ground: the truth must be a compromise between opposing positions

LOGICAL FALLACY BINGO

Card 40 of 80

Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Composition/division: Some protestors were violent, so all protestors are violent	Bandwagon: appeal to popularity
False dichotomy: present only two options, when other possibilities exist	Strawman: misrepresenting argument	Begging the question/circular reasoning/assuming the conclusion
Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Burden of proof: make opponent find evidence for your claim	Texas sharpshooter: cherry−pick evidence

LOGICAL FALLACY BINGO

Card 41 of 80

Red herring: distract by raising an irrelevant issue	Incredulity: dismissing argument because you find it hard to understand	Tu quoque: answering criticism with criticism
Texas sharpshooter: cherry−pick evidence	Strawman: misrepresenting argument	Anecdotal evidence: use personal experience to dismiss hard data
False dichotomy: present only two options, when other possibilities exist	Middle ground: the truth must be a compromise between opposing positions	Ad hominem: personal attack of opponent

LOGICAL FALLACY BINGO

Card 42 of 80

Special pleading: making exceptions when claim is refuted	Incredulity: dismissing argument because you find it hard to understand	Anecdotal evidence: use personal experience to dismiss hard data
Tu quoque: answering criticism with criticism	Texas sharpshooter: cherry−pick evidence	Slippery slope: weed is a gateway drug to heroin, so we should ban weed
Ambiguity: using double meanings or unclear definitions	Composition/division: Some protestors were violent, so all protestors are violent	Begging the question/circular reasoning/assuming the conclusion

LOGICAL FALLACY BINGO

Card 43 of 80

Special pleading: making exceptions when claim is refuted	Appeal to nature: because something is "natural", it is good	Ambiguity: using double meanings or unclear definitions
Red herring: distract by raising an irrelevant issue	Appeal to authority: Experts say so	Slippery slope: weed is a gateway drug to heroin, so we should ban weed
Texas sharpshooter: cherry−pick evidence	Tu quoque: answering criticism with criticism	Composition/division: Some protestors were violent, so all protestors are violent

LOGICAL FALLACY BINGO

Card 44 of 80

False dichotomy: present only two options, when other possibilities exist	Ambiguity: using double meanings or unclear definitions	Slippery slope: weed is a gateway drug to heroin, so we should ban weed
Ad hominem: personal attack of opponent	Red herring: distract by raising an irrelevant issue	Incredulity: dismissing argument because you find it hard to understand
Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Special pleading: making exceptions when claim is refuted	Appeal to nature: because something is "natural", it is good

LOGICAL FALLACY BINGO

Card 45 of 80

Special pleading: making exceptions when claim is refuted	Appeal to authority: Experts say so	Double standard
Ad hominem: personal attack of opponent	Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Appeal to nature: because something is "natural", it is good
Strawman: misrepresenting argument	Begging the question/circular reasoning/assuming the conclusion	False dichotomy: present only two options, when other possibilities exist

LOGICAL FALLACY BINGO

Card 46 of 80

Red herring: distract by raising an irrelevant issue	Strawman: misrepresenting argument	Incredulity: dismissing argument because you find it hard to understand
Appeal to authority: Experts say so	Special pleading: making exceptions when claim is refuted	Middle ground: the truth must be a compromise between opposing positions
Ambiguity: using double meanings or unclear definitions	False dichotomy: present only two options, when other possibilities exist	Composition/division: Some protestors were violent, so all protestors are violent

LOGICAL FALLACY BINGO

Card 47 of 80

Anecdotal evidence: use personal experience to dismiss hard data	Special pleading: making exceptions when claim is refuted	Double standard
Incredulity: dismissing argument because you find it hard to understand	False dichotomy: present only two options, when other possibilities exist	Appeal to nature: because something is "natural", it is good
Ambiguity: using double meanings or unclear definitions	Ad hominem: personal attack of opponent	Bandwagon: appeal to popularity

LOGICAL FALLACY BINGO

Card 48 of 80

Texas sharpshooter: cherry−pick evidence	Ad hominem: personal attack of opponent	Begging the question/circular reasoning/assuming the conclusion
Anecdotal evidence: use personal experience to dismiss hard data	Special pleading: making exceptions when claim is refuted	Bandwagon: appeal to popularity
Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Appeal to nature: because something is "natural", it is good	Tu quoque: answering criticism with criticism

LOGICAL FALLACY BINGO

Card 49 of 80

False dichotomy: present only two options, when other possibilities exist	Anecdotal evidence: use personal experience to dismiss hard data	Ambiguity: using double meanings or unclear definitions
Middle ground: the truth must be a compromise between opposing positions	Double standard	Begging the question/circular reasoning/assuming the conclusion
Appeal to nature: because something is "natural", it is good	Burden of proof: make opponent find evidence for your claim	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged

LOGICAL FALLACY BINGO

Card 50 of 80

Begging the question/circular reasoning/assuming the conclusion	Tu quoque: answering criticism with criticism	Bandwagon: appeal to popularity
Appeal to authority: Experts say so	Composition/division: Some protestors were violent, so all protestors are violent	Slippery slope: weed is a gateway drug to heroin, so we should ban weed
Special pleading: making exceptions when claim is refuted	Double standard	Incredulity: dismissing argument because you find it hard to understand

LOGICAL FALLACY BINGO

Card 51 of 80

Middle ground: the truth must be a compromise between opposing positions	Tu quoque: answering criticism with criticism	Appeal to nature: because something is "natural", it is good
Red herring: distract by raising an irrelevant issue	Special pleading: making exceptions when claim is refuted	Double standard
Ad hominem: personal attack of opponent	Anecdotal evidence: use personal experience to dismiss hard data	Burden of proof: make opponent find evidence for your claim

LOGICAL FALLACY BINGO

Card 52 of 80

Ambiguity: using double meanings or unclear definitions	Anecdotal evidence: use personal experience to dismiss hard data	Red herring: distract by raising an irrelevant issue
Appeal to nature: because something is "natural", it is good	Appeal to authority: Experts say so	Composition/division: Some protestors were violent, so all protestors are violent
Burden of proof: make opponent find evidence for your claim	Middle ground: the truth must be a compromise between opposing positions	Begging the question/circular reasoning/assuming the conclusion

LOGICAL FALLACY BINGO

Card 53 of 80

Composition/division: Some protestors were violent, so all protestors are violent	False dichotomy: present only two options, when other possibilities exist	Appeal to authority: Experts say so
Incredulity: dismissing argument because you find it hard to understand	Ambiguity: using double meanings or unclear definitions	Burden of proof: make opponent find evidence for your claim
Double standard	Begging the question/circular reasoning/assuming the conclusion	Slippery slope: weed is a gateway drug to heroin, so we should ban weed

LOGICAL FALLACY BINGO

Card 54 of 80

Begging the question/circular reasoning/assuming the conclusion	False dichotomy: present only two options, when other possibilities exist	Appeal to nature: because something is "natural", it is good
Strawman: misrepresenting argument	Bandwagon: appeal to popularity	Texas sharpshooter: cherry−pick evidence
Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Tu quoque: answering criticism with criticism	Double standard

LOGICAL FALLACY BINGO

Card 55 of 80

Strawman: misrepresenting argument	Red herring: distract by raising an irrelevant issue	Incredulity: dismissing argument because you find it hard to understand
Ambiguity: using double meanings or unclear definitions	Begging the question/circular reasoning/assuming the conclusion	Composition/division: Some protestors were violent, so all protestors are violent
Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Burden of proof: make opponent find evidence for your claim	Double standard

LOGICAL FALLACY BINGO

Card 56 of 80

Anecdotal evidence: use personal experience to dismiss hard data	Bandwagon: appeal to popularity	Special pleading: making exceptions when claim is refuted
Appeal to nature: because something is "natural", it is good	Ambiguity: using double meanings or unclear definitions	Burden of proof: make opponent find evidence for your claim
Strawman: misrepresenting argument	Appeal to authority: Experts say so	Composition/division: Some protestors were violent, so all protestors are violent

LOGICAL FALLACY BINGO

Card 57 of 80

Composition/division: Some protestors were violent, so all protestors are violent	Appeal to authority: Experts say so	Special pleading: making exceptions when claim is refuted
Red herring: distract by raising an irrelevant issue	Texas sharpshooter: cherry−pick evidence	Middle ground: the truth must be a compromise between opposing positions
Incredulity: dismissing argument because you find it hard to understand	Burden of proof: make opponent find evidence for your claim	Strawman: misrepresenting argument

LOGICAL FALLACY BINGO

Card 58 of 80

Red herring: distract by raising an irrelevant issue	Middle ground: the truth must be a compromise between opposing positions	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged
Incredulity: dismissing argument because you find it hard to understand	Composition/division: Some protestors were violent, so all protestors are violent	Strawman: misrepresenting argument
Double standard	Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Bandwagon: appeal to popularity

LOGICAL FALLACY BINGO

Card 59 of 80

Bandwagon: appeal to popularity	Composition/division: Some protestors were violent, so all protestors are violent	Double standard
Appeal to nature: because something is "natural", it is good	Begging the question/circular reasoning/assuming the conclusion	Middle ground: the truth must be a compromise between opposing positions
Ad hominem: personal attack of opponent	Strawman: misrepresenting argument	Special pleading: making exceptions when claim is refuted

LOGICAL FALLACY BINGO

Card 60 of 80

Tu quoque: answering criticism with criticism	Ad hominem: personal attack of opponent	Incredulity: dismissing argument because you find it hard to understand
False dichotomy: present only two options, when other possibilities exist	Red herring: distract by raising an irrelevant issue	Special pleading: making exceptions when claim is refuted
Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Strawman: misrepresenting argument	Anecdotal evidence: use personal experience to dismiss hard data

LOGICAL FALLACY BINGO

Card 61 of 80

Strawman: misrepresenting argument	Special pleading: making exceptions when claim is refuted	Ambiguity: using double meanings or unclear definitions
Tu quoque: answering criticism with criticism	Appeal to nature: because something is "natural", it is good	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged
Double standard	Bandwagon: appeal to popularity	Burden of proof: make opponent find evidence for your claim

LOGICAL FALLACY BINGO

Card 62 of 80

Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Ambiguity: using double meanings or unclear definitions	Incredulity: dismissing argument because you find it hard to understand
Composition/division: Some protestors were violent, so all protestors are violent	Appeal to nature: because something is "natural", it is good	Begging the question/circular reasoning/assuming the conclusion
Ad hominem: personal attack of opponent	Texas sharpshooter: cherry−pick evidence	Appeal to authority: Experts say so

LOGICAL FALLACY BINGO

Card 63 of 80

Tu quoque: answering criticism with criticism	Incredulity: dismissing argument because you find it hard to understand	Appeal to authority: Experts say so
Middle ground: the truth must be a compromise between opposing positions	Appeal to nature: because something is "natural", it is good	Ambiguity: using double meanings or unclear definitions
Bandwagon: appeal to popularity	Double standard	Slippery slope: weed is a gateway drug to heroin, so we should ban weed

LOGICAL FALLACY BINGO

Card 64 of 80

Red herring: distract by raising an irrelevant issue	Tu quoque: answering criticism with criticism	Appeal to authority: Experts say so
Ambiguity: using double meanings or unclear definitions	Begging the question/circular reasoning/assuming the conclusion	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged
Appeal to nature: because something is "natural", it is good	Ad hominem: personal attack of opponent	Bandwagon: appeal to popularity

LOGICAL FALLACY BINGO

Card 65 of 80

False dichotomy: present only two options, when other possibilities exist	Appeal to authority: Experts say so	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged
Ad hominem: personal attack of opponent	Incredulity: dismissing argument because you find it hard to understand	Composition/division: Some protestors were violent, so all protestors are violent
Red herring: distract by raising an irrelevant issue	Tu quoque: answering criticism with criticism	Burden of proof: make opponent find evidence for your claim

LOGICAL FALLACY BINGO

Card 66 of 80

Begging the question/circular reasoning/assuming the conclusion	Red herring: distract by raising an irrelevant issue	Appeal to authority: Experts say so
Anecdotal evidence: use personal experience to dismiss hard data	Tu quoque: answering criticism with criticism	Appeal to nature: because something is "natural", it is good
Special pleading: making exceptions when claim is refuted	Incredulity: dismissing argument because you find it hard to understand	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged

LOGICAL FALLACY BINGO

Card 67 of 80

Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Red herring: distract by raising an irrelevant issue	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged
Texas sharpshooter: cherry−pick evidence	Bandwagon: appeal to popularity	Appeal to nature: because something is "natural", it is good
Strawman: misrepresenting argument	Middle ground: the truth must be a compromise between opposing positions	Composition/division: Some protestors were violent, so all protestors are violent

LOGICAL FALLACY BINGO

Card 68 of 80

Red herring: distract by raising an irrelevant issue	Ambiguity: using double meanings or unclear definitions	Double standard
Appeal to authority: Experts say so	Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Tu quoque: answering criticism with criticism
False dichotomy: present only two options, when other possibilities exist	Appeal to nature: because something is "natural", it is good	Composition/division: Some protestors were violent, so all protestors are violent

LOGICAL FALLACY BINGO

Card 69 of 80

Ambiguity: using double meanings or unclear definitions	Texas sharpshooter: cherry−pick evidence	Ad hominem: personal attack of opponent
Bandwagon: appeal to popularity	Incredulity: dismissing argument because you find it hard to understand	Red herring: distract by raising an irrelevant issue
Anecdotal evidence: use personal experience to dismiss hard data	Begging the question/circular reasoning/assuming the conclusion	Appeal to nature: because something is "natural", it is good

LOGICAL FALLACY BINGO

Card 70 of 80

Bandwagon: appeal to popularity	Special pleading: making exceptions when claim is refuted	Ambiguity: using double meanings or unclear definitions
Double standard	Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Ad hominem: personal attack of opponent
Red herring: distract by raising an irrelevant issue	Composition/division: Some protestors were violent, so all protestors are violent	Burden of proof: make opponent find evidence for your claim

LOGICAL FALLACY BINGO

Card 71 of 80

Tu quoque: answering criticism with criticism	Bandwagon: appeal to popularity	Ad hominem: personal attack of opponent
Special pleading: making exceptions when claim is refuted	Ambiguity: using double meanings or unclear definitions	Incredulity: dismissing argument because you find it hard to understand
Appeal to authority: Experts say so	Middle ground: the truth must be a compromise between opposing positions	False dichotomy: present only two options, when other possibilities exist

LOGICAL FALLACY BINGO

Card 72 of 80

Composition/division: Some protestors were violent, so all protestors are violent	Texas sharpshooter: cherry−pick evidence	Red herring: distract by raising an irrelevant issue
Begging the question/circular reasoning/assuming the conclusion	Appeal to nature: because something is "natural", it is good	Ambiguity: using double meanings or unclear definitions
Tu quoque: answering criticism with criticism	Incredulity: dismissing argument because you find it hard to understand	Special pleading: making exceptions when claim is refuted

LOGICAL FALLACY BINGO

Card 73 of 80

Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Tu quoque: answering criticism with criticism	Appeal to nature: because something is "natural", it is good
Anecdotal evidence: use personal experience to dismiss hard data	Begging the question/circular reasoning/assuming the conclusion	Special pleading: making exceptions when claim is refuted
Double standard	Appeal to authority: Experts say so	Strawman: misrepresenting argument

LOGICAL FALLACY BINGO

Card 74 of 80

Double standard	Composition/division: Some protestors were violent, so all protestors are violent	Appeal to nature: because something is "natural", it is good
Ad hominem: personal attack of opponent	Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Anecdotal evidence: use personal experience to dismiss hard data
Tu quoque: answering criticism with criticism	Special pleading: making exceptions when claim is refuted	Ambiguity: using double meanings or unclear definitions

LOGICAL FALLACY BINGO

Card 75 of 80

Composition/division: Some protestors were violent, so all protestors are violent	Incredulity: dismissing argument because you find it hard to understand	Begging the question/circular reasoning/assuming the conclusion
Red herring: distract by raising an irrelevant issue	Burden of proof: make opponent find evidence for your claim	Bandwagon: appeal to popularity
Texas sharpshooter: cherry−pick evidence	Appeal to nature: because something is "natural", it is good	False dichotomy: present only two options, when other possibilities exist

LOGICAL FALLACY BINGO

Card 76 of 80

Anecdotal evidence: use personal experience to dismiss hard data	Strawman: misrepresenting argument	Texas sharpshooter: cherry−pick evidence
Ad hominem: personal attack of opponent	Composition/division: Some protestors were violent, so all protestors are violent	Special pleading: making exceptions when claim is refuted
Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Middle ground: the truth must be a compromise between opposing positions	Tu quoque: answering criticism with criticism

LOGICAL FALLACY BINGO

Card 77 of 80

Anecdotal evidence: use personal experience to dismiss hard data	Strawman: misrepresenting argument	Ambiguity: using double meanings or unclear definitions
Appeal to nature: because something is "natural", it is good	Ad hominem: personal attack of opponent	Begging the question/circular reasoning/assuming the conclusion
Special pleading: making exceptions when claim is refuted	Double standard	Red herring: distract by raising an irrelevant issue

LOGICAL FALLACY BINGO

Card 78 of 80

Burden of proof: make opponent find evidence for your claim	Bandwagon: appeal to popularity	Slippery slope: weed is a gateway drug to heroin, so we should ban weed
Incredulity: dismissing argument because you find it hard to understand	Middle ground: the truth must be a compromise between opposing positions	Anecdotal evidence: use personal experience to dismiss hard data
Appeal to nature: because something is "natural", it is good	Texas sharpshooter: cherry−pick evidence	Double standard

LOGICAL FALLACY BINGO

Card 79 of 80

Bandwagon: appeal to popularity	Appeal to authority: Experts say so	Tu quoque: answering criticism with criticism
Texas sharpshooter: cherry−pick evidence	Middle ground: the truth must be a compromise between opposing positions	False dichotomy: present only two options, when other possibilities exist
Appeal to nature: because something is "natural", it is good	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Anecdotal evidence: use personal experience to dismiss hard data

LOGICAL FALLACY BINGO

Card 80 of 80

Texas sharpshooter: cherry−pick evidence	Slippery slope: weed is a gateway drug to heroin, so we should ban weed	Tu quoque: answering criticism with criticism
Red herring: distract by raising an irrelevant issue	Motte−and−Bailey: make strong claim, substitute weaker claim when challenged	Appeal to nature: because something is "natural", it is good
Strawman: misrepresenting argument	Ambiguity: using double meanings or unclear definitions	Appeal to authority: Experts say so
